

OOTC48 Required Elements

During Kickoff, after everyone picks their two (2) sub genres, and minutes before the Challenge Weekend begins, we will announce the three required elements for that competition.

The elements vary from year to year, but all teams will receive the same elements.

Elements used in end credits of your film do NOT count.

These three elements **MUST** be included in your film for the film to be eligible for awards.

Prop:

The required prop (object) **MUST** be seen in your film on screen and should be used in your film in some way.

Line of Dialogue:

The required line **MUST** be spoken, sung or written VERBATIM. It may be divided between two actors, as long as both parts follow each other without added words in between. It may be in a foreign language, but then it should be subtitled.

Character:

The required character does not have to be the leading role, but we must actually see them on screen. The name does NOT have to be spoken out loud, as long as we can infer who they are. The profession/character trait and name of the character must belong to the same person.
